So Bring It On

The Cheetah Girls

You do your best to write off my name
Try to control me but that's gonna change
If you look closer you'll know what I mean
You'll see the girl become a machine

I'll squeeze you, unease you, I'll freeze you
Alarm you, disarm you, I'll charm you
I'll block you, unlock you, I'll shock you
You wanna fight then we'll do it my way

So bring it on, I'll have you wrapped up around my finger
So bring it on, start wearing your things you'll know for sure
So bring it on, I wanna get dangerous but diamond fists, it's over with
So listen up 'cuz you ain't messing with me anymore

My invitation is not just a game
I've gotta show you that I can't be claimed
I've got the power to turn this around
'Cuz it's my life and I wear the crown

I'll squeeze you, unease you, I'll freeze you
Alarm you, disarm you, I'll charm you
I'll block you, unlock you, I'll shock you
You wanna fight then we'll do it my way

So bring it on, I'll have you wrapped up around my finger
So bring it on, start wearing your things you'll know for sure
So bring it on I wanna get dangerous but diamond fists, it's over with

So bring it on, I'll have you wrapped up around my finger
So bring it on, start wearing your things you'll know for sure
So bring it on I wanna get dangerous but diamond fists, it's over with

I won't loose sleep tonight
'Cuz I got what I need inside
It's time you see the light
So spotlight shine your light down on me

I'll squeeze you, unease you, I'll freeze you
Alarm you, disarm you, I'll charm you
I'll block you, unlock you, I'll shock you
You wanna fight then we'll do it my way

So bring it on, I'll have you wrapped up around my finger
So bring it on, start wearing your things you'll know for sure
So bring it on, I wanna get dangerous but diamond fists, it's over with

So bring it on, I'll have you wrapped up around my finger
So bring it on, start wearing your things you'll know for sure
So bring it on, I wanna get dangerous but diamond fists, it's over with
So listen up 'cuz you ain't messing with me
