

# What If

## The Cheetah Girls

Maybe this was meant to be  
Maybe now it should be me  
Been dreamin' of this forever

But I'm feelin' so confused...yeah  
It's hard to see what's right  
Between you and I  
And I don't know what to do

Oh we'd stay together always is the promise we made  
But suddenly it's not so clear  
And I'm being pulled both ways

And it's ripping my heart, tearin' me apart  
It's impossible to choose  
What if I don't try  
What if I do  
Everything that I've dreamed right in front of me  
If I win what would I lose  
How could I learn to live wondering...what If?

Things would never be the same, oh no  
Maybe that's the price of fame  
Been waitin' for this forever

It's close enough for me to touch  
But if I don't go for it, I might always regret  
But is it worth us breaking up

Oh we'd stay together always is the promise we made  
But suddenly it's not so clear  
And I don't know what to say

And it's ripping my heart, tearin' me apart  
It's impossible to choose  
What if I don't try  
What if I do  
Everything that I've dreamed right in front of me  
If I win what would I lose  
How could I learn to live wondering...

What If I would have tried  
I could shine, even fly  
I don't wanna realize after it's too late  
And see it all pass me by

If I do, if I don't  
Will I ever really know  
What the future could hold before it slips away  
Could be the chance of a lifetime

And it's ripping my heart, tearin' me apart  
It's impossible to choose  
What if I don't try  
What if I do  
Everything that I've dreamed right in front of me  
If I win what would I lose

How could I learn to live wondering...What If?

I never want to say...what if?
