## The Pills Won't Help You Now

## The Chemical Brothers

Thought we were going
And go up the field away
And join all the other living souls
But you never came

Robbed of your fortune You get disappointments in life You're probably poisoning your body I hope you're alright

In a moment of fear
You dig in your heels
The pills won't help you now
Once you're crying

Thought we were going
Go up the field away
Join all the other living souls
But you never came

Robbed of your fortune You get disappointments in life You're probably poisoning your body I hope you're alright

In a moment of fear You dig in your heels The pills won't help you now Once you cry

Robbed of your fortune You get disappointments in life You're probably poisoning your body I hope you're alright

In a moment of fear You dig in your heels The pills won't help you now Once you cry

In a moment of fear
You dig in your heels
The pills won't help you now
Once you cry
