

Love Me Like You're Gonna Lose Me

The Chiffons

Let's make this a night to remember
A very special night to remember

Fun and games by candlelight and music - sweet music playing

Make believe that I've been crying -
Make-believe that you've been lyin'
Let's make like I'm packing up and leaving you

Oh baby,

C'mon and love me
Just like you're going to lose me
I promise you won't lose me -
If you love me in this way

Every day...

Oh what fun it is pretending
I can't wait for the happy ending
Love is just a game - and we've been playing
So nice together

Let's not take our love for granted
When in doubt you're more romantic

Let's break up each night and say goodbye - then baby...

C'mon and love me just like you're going to lose me
'Cos when you lose someone you love them more that day

Oh baby

Come on, the and love me
Just like you're gonna to lose me
I promise you're not going to lose me
If you love me in this way
Every day...
