

Nobody Gets A Smooth Ride

The Choir

Nobody gets a smooth ride
Every child will learn how the asphalt burns
When he takes sharp turn too wide
Nobody gets a smooth ride
I'm really sorry the way things are going these days
Try to be careful, that's all I can say
I'm really sorry the way things are going

Civilians needn't wear guns
Bullets rain on us
The hapless populace
Fools will shoot the sky just for fun
Civilians need't wear guns
I'm really sorry the way things are going these days
Try to be careful that's all I can say
I'm really sorry the way things are going

High flyers oughta use nets
Hold on tight to the bar
Circus trapeze star
What a shame should you fall to your death
High flyers oughta use nets
I'm really sorry the way things are going these days
Try to be careful, that's all I can say
I'm really sorry the way things are going these days
Try to be careful, that's all I can say
I'm really sorry the way things are going
Nobody gets a smooth ride
