## Anaesthesia

**The Church** 

I remember going out yeah Everything is spinning round Remember feeling like I'd drowned Behind the veil is a sea yeah Only entered into chemically Anaesthesia down so deep

Anaesthesia's numbing Anaesthesia's coming to you I don't know why Seems like I'm flying On the ground, in the air

Slow-mo don't know I can't stop or go Where's the show, where I got a feeling about someone I do not know where So many things need fixing everywhere Anaesthesia tells me "slow down a little more" She says "why not sleep a little more" And tiptoes softly to the door

Anaesthesia's numbing Anaesthesia's coming to you I don't know why Seems like I'm flying On the ground, in the air

Anaesthesia's soothing Anaesthesia's moving with you I don't know how It seems like now It seems like never to me
