

Lizard

The Church

Lizard, lizard
Still want near darkness, black summer
Evil drifting beyond
Somewhere a plane leaves
You're skin's strange

You always make it so hard
Lizard
You always make it so hard
Lizard

Morning comes prised
Your eyes multi-faceted
Dreaming of islands out there

You always make it so hard
Lizard
It's always worked so far
Lizard
And you burn so cold
Lizard
You always make it so hard
Lizard

Black storms
White stars
That air rushes past your eyes
Crystalline baby, maybe

You always make it so hard

You always make it so hard
Lizard
It's always worked so far
Lizard
And it burnt so cold
Lizard
You always make it so hard
Lizard
You always make it so hard
Lizard
You always make it so hard
