

## Lullaby

### The Church

We come to pay homage to the golden one  
We share and bear the message of your newborn son  
We follow paths of falling stars  
In and out of mangers, other bars

Opportunity knocked you up I guess  
Gave you your little baby's success  
You've got potential, you have the gift  
You have the chance to heal a million rifts

We've been sent to sing a lullaby for you  
We've been sent to sing a lullaby

We've brought oils, gold and wine and bread  
A dreaming pillow for his divine head  
Astrologers all we plot the charts  
And wise men we can look into people's hearts

A doom is on the child that I can see  
He don't belong in this time with you and me  
His life will not be very long  
Before you know it he will be gone  
We've been sent to sing a lullaby for you
