## The Church

Oh yeah  
Your one and only life  
Ripped from the earth with these bare hands  
You dare  
Question the ritual  
Despite continual  
Threats of "gonna get you all"

1 law for the officers  
1 for the gentlemen  
2 bad you 3 know what it's 4  
5 for this awful dive  
6 for the genetics  
7 for the lucky pricks who went into heaven

Nightmare  
We ride for miles and miles  
Following the howling of our prey  
Out there  
Reload our yellow rigs  
Scrambling for shelter  
Dig a void, decay

1 for the flaming sun  
2 for the location  
3 for the martyrs and the stars  
4 for the wind and sand  
5 so you understand  
6 for the slips 'twixt the cup and the lips

1 for the cockpit blues  
2 for the Panzer crews  
3 for the vast and molten sky  
4 for the failed talks  
5 for the knives and forks  
6 for forbidden kicks  
All the yobbos in the sticks
