

## Take Your Place

The Church

These are the marks you made  
You never meant to fade  
They come in to take your place  
And these are the stories I heard  
Come back, a sad farewell  
They come in to take your place  
But all of the treasure you saved  
And none of the lives you lost  
Will come in to take your place  
And three (free ?) are the days in May  
But not one single moment  
Will come in to take your place

Will come in to take your place (repeat)  
They come in to take your place (repeat)
