

## Youth Worshipper

### The Church

Youth worshipper, goddess of ruin  
Youth worshipper, like you know what you're doing  
I'll bet the sun and rain never touch your face again  
Race against the time  
Youth worshipper, hope you know what you're worth now  
Youth worshipper, Like you're paying the earth now  
You want the child back, want an aphrodisiac  
To fill the crack with time  
Hooves and horns and teeth and bones  
I'm gonna stitch you up when you come unsewn  
Youth worshipper, wrapped in blue fox and ermine  
Youth worshipper, got no pity for vermin  
Your engines and machines drink your fuel and steal your scenes  
They come between in time
