

## Dust to Dust

The Civil Wars

It's not your eyes  
It's not what you say  
It's not your laughter  
That gives you away  
You're just lonely  
You've been lonely too long

All your acting, your thin disguise  
All your perfectly delivered lines  
They don't fool me  
You've been lonely too long

Let me in the walls  
You've built around  
We can light a match  
And burn them down  
Let me hold your hand  
And dance 'round and 'round the flames  
In front of us  
Dust to dust

You've held your head up  
You've fought the fight  
You bear the scars  
You've done your time  
Listen to me  
You've been lonely too long

Let me in the walls  
You've built around  
We can light a match  
And burn them down  
Let me hold your hand  
And dance 'round and 'round the flames  
In front of us  
Dust to dust

You're like a mirror, reflecting me  
Takes one to know one, so take it from me  
You've been lonely  
You've been lonely too long  
We've been lonely  
We've been lonely too long
