

Time Out

The Clark Sisters

You live your life like you are counting every hour
No time to spare no time to smell the flowers
You work your finger to the bone (just to stay alive)
Now you find yourself alone (say you will survive)
You need to take some time out while you can

[Chorus:]

(time out) stop and look around you
(take some time out) there's so many things to see
(time out) don't let this life gone on with you
(time out) time out
Time out

All day all night your trying to make a living
It's an oversight there something your forgetting
Your son has things he want to show you (you are never home)
Your friends don't even know you (and you never phone)
This life won't last forever you need to take some time out while you can

[Chorus]

Good friends and family too
Look at all all that God has gave to you
He gave his soul his greatest gift
Life that we could live

[Chorus 3x]
