

Help Me Out

The Clarks

You always told me that you'd
Understand if I ever found something else
That I wanted to do
You always showed me right from wrong
You always let me sing my song
That's what I wanted to do

Help me out
I'm just a little down and out
Help me out
You gotta let me scream and shout
Help me out
C'mon help me out

When I find myself alone
Living life without a home
That's where I wanted to be
If I need you in the end
Will you always be my friend
That's what I need you to be

Help me out
I'm just a little down and out
Help me out
You gotta let me scream and shout
Help me out
C'mon help me out

Help me out
I'm just a little down and out
Help me out
You gotta let me scream and shout
Help me out
C'mon help me out
C'mon help me out

Help me out
I'm just a little down and out
Help me out
You gotta let me scream and shout
Help me out
C'mon help me out

Help me out
I'm just a little down and out
Help me out
You gotta let me scream and shout
Help me out
C'mon help me out

Help me out
I'm just a little down and out
Help me out
You gotta let me scream and shout
Help me out
Hey, c'mon help me out
