

# Help Me Out

The Clarks

You always told me that you'd  
Understand if I ever found something else  
That I wanted to do  
You always showed me right from wrong  
You always let me sing my song  
That's what I wanted to do

Help me out  
I'm just a little down and out  
Help me out  
You gotta let me scream and shout  
Help me out  
C'mon help me out

When I find myself alone  
Living life without a home  
That's where I wanted to be  
If I need you in the end  
Will you always be my friend  
That's what I need you to be

Help me out  
I'm just a little down and out  
Help me out  
You gotta let me scream and shout  
Help me out  
C'mon help me out

Help me out  
I'm just a little down and out  
Help me out  
You gotta let me scream and shout  
Help me out  
C'mon help me out  
C'mon help me out

Help me out  
I'm just a little down and out  
Help me out  
You gotta let me scream and shout  
Help me out  
C'mon help me out

Help me out  
I'm just a little down and out  
Help me out  
You gotta let me scream and shout  
Help me out  
C'mon help me out

Help me out  
I'm just a little down and out  
Help me out  
You gotta let me scream and shout  
Help me out  
Hey, c'mon help me out
