If I Fall Through

The Clarks

If I stop and say that's it what would you do
If I lie down and quit and put and end to you
If I fall through that hole would you pick me up
If I lose my control and break your loving cup

If I fall through
If I fall through

If I love you too hard would you slow me down
If I crawl through your yard my face on the ground
If I fall through that hole mighty river below
If I lose my control would you not let go

If I fall through
If I fall through

If I fall through
If I fall through
If I fall through
If I fall through
