

Tell Me

The Clarks

By the look in your eyes I can see
That you'll never be alone again
By the look in your eyes I can see
That you'll never be alone again

You tell me you're lonely
You tell me you're only
Trying to get what you want
You tell me you're crazy
Drugs make you lazy
You're living on the battlefield

By the look in your eyes I can see
That you'll never be alone again
By the look in your eyes I can see
That you'll never be alone again

You tell me you know me
You're gonna show me
Show me what you really want
You tell me you need me
You're gonna please me
Just tell me what you really want

By the look in your eyes I can see
That you'll never be alone again
By the look in your eyes I can see
That you'll never be alone
Again
On the battle line
Again
Don't you want me this time
Again
On the battlefield
Again
What you really want is me

You tell me you're lonely
You tell me you're only
Trying to get what you want
You tell me you're crazy
Drugs make you lazy
You're living on the battlefield
You tell me you know me
You're gonna show me
Show me what you really want
You tell me you need me
You're gonna please me
Just tell me what you want
You tell me you're lonely
You tell me you're only
Trying to get what you want

By the look in your eyes I can see
That you'll never be alone again
By the look in your eyes I can see
That you'll never be alone again

By the look in your eyes I can see
Never
