

## Wait A Minute

The Clarks

Wait a minute can we stop the car right here  
Can I take a picture here can I  
Have a second just to take in all the sights  
All the southern stars and northern lights  
Wait a minute can we put aside the past  
Can we make it something last for life

Say wrong say right tonight  
Say wrong say right tonight

Wait a minute can you play that song again  
It makes me think about a friend can I  
Have a second can you take me back in time  
Close my eyes and hear her voice her rhyme  
Wait a minute can I say I'm sorry now  
I admit I don't know how or why

Say wrong say right tonight  
I need everything that you need  
I breathe the same air that you breathe  
Say wrong say right tonight  
I need everything that you need  
I breathe the same air that you breathe

And I've been wrong now for so long  
I'm just trying to get it right
