

## Dawn on the Road

The Claymore

Let the wheels turn every day , the engine roars again  
We feel the sun on our face  
We just live to ride and touch the wind's warm embrace

We ride the horse of steel , the fuel is burning in our veins  
Praise the keepers of the faith  
Build a bridge to new horizons and the freedom will arise

Break the limit of your speed in the dangerzone  
Feel the spirit of the hawk in the morninglight

Show me the way , where I can ride  
Freedom is always forever  
Open your heart , ready to start  
Dawn on the road , stay together

Forever

We are rebellions on the highway, we will never die  
We are the children of the road  
Spread your wings of steel to fly into the endless stream

Break the limit of your speed in the dangerzone  
Feel the spirit of the hawk in the morninglight

Show me the way , where I can ride  
Freedom is always forever  
Open your heart , ready to start  
Dawn on the road , stay together
