

## The Way It Goes

### The Click Five

It could have been something  
Something into nothing  
That's just the way it goes  
And everybody knows

Starting flying this way  
Arrows through a heart shape  
That's just the way it goes  
And everybody knows (2x)  
That's just the way it goes

Driving down the highway  
Living on a heart ache  
That's just the way it goes  
And everybody knows

Dreaming of your best thoughts  
Dying for the small talk  
That's just the way it goes  
And everybody knows (2x)  
That's just the way it goes

First time, just a quick run through  
Next time, when you're gonna get to  
Slow down  
Do ya hurry up  
And move on to another round

Next time, better than the first time  
Last time, better than the next time  
Sunsets, fade to black  
And you know  
That's just the way it goes (3x)

First time, just a quick run through  
Next time, when you're gonna get to  
Slow down  
Do ya hurry up  
And move on to another round

That's just the way it goes (2x)
