

## Spirit

### The Clientele

I've been hanging around  
Feeling up, feeling down  
It's like I'm blown in by something  
I don't understand  
Hey, it's been really nice  
We went for a drink  
We went for a drive  
Phased out one million hopeless nights

I've got the spirit  
I've got the spirit  
It won't last

Behind the Esso balloon  
I laughed so much, I split in two  
Now I've got so much fear inside me, nothing's true (x3)

I've got the spirit  
I've got the spirit  
It won't last
