

Spirit

The Clientele

I've been hanging around
Feeling up, feeling down
It's like I'm blown in by something
I don't understand
Hey, it's been really nice
We went for a drink
We went for a drive
Phased out one million hopeless nights

I've got the spirit
I've got the spirit
It won't last

Behind the Esso balloon
I laughed so much, I split in two
Now I've got so much fear inside me, nothing's true (x3)

I've got the spirit
I've got the spirit
It won't last
