

Back From The Grave

The Coffinshakers

I answered the call of the necromancer
Defying the powers of Heaven and Hell
Killing whatever comes in my way

Driven by an ancient force
I walk upon the earth once more
Killing whatever comes in my way, I'm back from the grave

Unstoppable evil, revenge of the dead
Creepin' up on you I bite off your head
Eating whatever comes in my way

Can't you see I'm just out for fun
When I take a bite off that dear little nun
Eating whatever comes in my way, I'm back from the grave

Can't you see that I'm just out for fun
Can't you see that I've only just begun

I'm back from the grave
Back from the grave
Back, back from the grave
Haunting, stalking, I'm back from the grave
