

We Are The Undead

The Coffinshakers

Terror from beyond the grave is comin' your way
Summoned from the shores of Hell
Bloodlust burning deep inside and no emotions left
It's only a human shell

You can't see my reflection when I sneak into your room
Your life you soon will be giving
We are spawn of Hell, we are of the Undead
The mirror sees only the living

We are the Undead, comin' for you tonight
We are the Undead, feedin' on your blood
We are the Undead, walkin' upon the earth
But we exist only in Hell

Witchhunters chasing us, ready with their pyres
Fire won't make us die
Come on you humans, show us what you've got
Kiss your life goodbye

We are the Undead...
