

Fair Weather Friends

The Colourist

You say that you are alone
I say that you are adored
I know that you know
I know that you know it's been worse
It's been worse

You say that the world is crashing down
But who was there for you?
Your friends were, your friends were
Your friends were there

Your friends were, your friends were
Your friends were there
Your friends were, your friends were
Your friends were there

Well, I don't feel sorry for you now
No, I don't feel sorry for you
Well, I don't feel sorry for you now
No, I don't feel sorry for you

Well, I don't feel sorry for you now
No, I don't feel sorry for you
Well, I don't feel sorry for you now
No, I don't feel sorry for you

Well, I don't feel sorry for you now
No, I don't feel sorry for you now

You say that the world is crashing down
But who was there for you?
Your friends were, your friends were
Your friends were there

Your friends were, your friends were
Your friends were there
