

Fix This

The Colourist

I tried so hard
Keeping up, keeping my head up
For what I thought was so right
Guess I'm not right always
And I thought love was a fight
You could tear each other down
Then come back to life
Guess I don't live always

Your set backs add up
I was wrong about us
Don't slam that door shut, just yet.

Hear me out
I wont sleep tonight
You wont leave this house
See you shaking but you wont let it out
We can make this right
I wont leave this house
I will fix this somehow

I tried so hard
Lift your lie
And I never showed you my cold feet, just my pride
Guess it killed you always
But I see light in your eyes
Even though I don't know how you can up the fight
Guess I cant win always

Your set backs add up
I was wrong about us
Don't turn and walk out just yet

Hear me out
I wont sleep tonight
You wont leave this house
See you shaking but you wont let it out
We can make this right
I wont leave this house
I will fix this somehow

I will fix this somehow

And you wont say
And you wont say
And you wont say we're done
And you wont say we're done
I won't let this go on
I wont let this go
And you wont say we're done
And you wont say we're done
I wont let this go on
I wont let this go

Hear me out
I wont sleep tonight
You wont leave this house

See you shaking but you wont let it out
We can make this right
I wont leave this house
I will fix this somehow

Hear me out
I wont sleep tonight
You wont leave this house
See you shaking but you wont let it out
We can make this right
I wont leave this house
I will fix this somehow

I will fix this somehow
I will fix this somehow
