

Love Goes On

The Common Linnets

Please don't think that I've forgotten
Who you were and are to me
There's a safe place in my heart
There you'll always be with me

Years pass by and we get older
There's so much you didn't see
But your hands still on my shoulder
Much more than a memory

Endless highway bring me home
All I know is that our love goes on

You're in me and in my brothers
Yes and mom still wears your ring
For her there'll never be another
You don't compare to anything

Singing songs while doing dishes
Cracking jokes you filled the room
I miss your laughter and your kisses
That's how I'll remember you

Endless highway bring me home
All I know is that our love goes on

Endless highway bring me home
All I know is that our love goes on (2x)
