

## Forbidden Love

### The Communards

Our love is like forbidden fruit  
But we take each bite with pride not shame  
In this garden where the bitter poison rots  
But all the same ... we shall

Stand so strong so proud  
Give in to prejudice  
Behind closed doors we have to kiss  
But I long to hold your hand in the rain

Watching accepted lovers expressing  
tenderness and joy  
Makes an anger stir in me for  
something I can't truly have

Like a young boy who's denied his favourite toy  
I just want to scream, just want to scream  
And demonstrate my resistance  
Just demonstrate my resistance  
Demonstrate my resistance

Our love is like forbidden fruit  
But we take each bite with pride not shame

In this garden where the bitter poison rots  
But all the same every day brings another tear  
Behind each stare lies a hidden tear  
Someday soon we will have our day  
Until then our love forbidden stays

Our love is like forbidden fruit  
Our love is like forbidden fruit  
Our love is like forbidden fruit  
Our love is like forbidden fruit  
Forbidden fruit, forbidden fruit
