

## There's More to Love

The Communards

There's more to love than boy meets girl  
There' s more to love than boy meets girl.  
For love is strange and uncontrolled  
It can happen to anyone  
There's more to love than boy meets girl.  
I would like to shout it from the highest mountain  
To tell the world I've found love and what it means to me.  
But all around there's violence and laws  
To make me think again  
Maybe one day they will understand.  
There's more to love than boy meets girl  
. . .  
I saw your face  
It caught the light  
Infatuation swirls inside  
My every thought for days was only you.  
So I'll climb that mountain and shout it loud  
I'll never let them bring me down  
And one day they will have to understand.  
There's more to love than boy meets girl. (9 x)
