

Change in the Weather

The Concretes

There's a change in the weather
Heard it's coming soon
There's a change in the weather
Hope this gets to you
Here's to everyone, sing along

There's a change in the weather
Don't know where to go
There's a change in the weather
Don't go to work
Here's what we say, sing along
Here's what we do, sing along

When it's closing in we're gonna hold you
and whisper sweet melodies in your ear
So you never feel lonely, lonely, lonely, lonely

There's a change in the weather
we will come for you
There's a change in the weather
We will comfort you
