

## Lady December

The Concretes

Lady December my heart is all yours  
It beats like a drum  
I've never asked you  
But do you wear loads, when it goes far below  
You lay down your cloak of snow and it spreads all over  
Lend me you hand and I'll give you a rush of the heat  
Forgive n' forget, forgive n' forget.  
Mission maid sowing her seeds  
Working her way through the frost  
This she said she does to bring some hope  
For the oncoming season (what spring will bring)  
She feeds me something that looks really old  
But tastes brand new (sweet cherry wine)  
In the back of my head I hear children  
Sing about forgive n' forget (forgive n' forget)  
Forgive n' forget, forgive n' forget.  
When the gailwind blows, when the gailwind blows.  
Ladycember, ladycember, ladycember, ladycember
