

Wasting Away

The Confession

I, I want your everything
They, they want your soul
We, we sing of emerging
They echo from their holes

This morbid high makes me feel alive
Cuz we all like to feel like we're dead inside
This lucid lie makes me feel alive

What are you taking because I'm wasting away
I see you shaking heads all vacant decay

I, I want your everything
They, they want your soul
We, we sing of emerging
They echo from their holes

This morbid high makes me dead inside
Cuz we all like to feel like we're not alive
This lucid lie makes me dead inside

What are you taking because I'm wasting away
I see you shaking heads all vacant decay

We, we sing of emerging
They echo from their holes

This morbid high makes me feel alive
Cuz we all like to feel like we're not alive
This lucid lie makes me dead inside

What are you taking because I'm wasting away
What are you taking because I'm wasting away
What are you taking because I'm wasting away
I see you shaking heads all vacant decay
