

Tongue chewed off and head in books  
Latly I've been taken ill  
All we do is drive that's cool  
But I need her around so I'll just wait and see  
Soon she'll be home  
Baby's coming home

She's all I need she's wired into me  
Hey don't you think I know it's unhealthy  
it's no big deal  
Sooner or later you heal or you die  
Oh my sweet love  
My beautiful disease the bullet to my knees  
It's her and her alone I adore

All I've said and things I've done  
Hate I drew into your eyes  
Everything is gone so young  
You don't need me around  
No one else can lift this head this soul  
Baby come on home

She's all I need she's wired into me  
Hey don't you think I know it's unhealthy  
it's no big deal  
Sooner or later you heal or you die  
Oh my sweet love  
My beautiful disease the bullet to my knees  
It's her and her alone I adore
