

Let's Kill Music

The Cooper Temple Clause

We dare you to mean a single word you say
Feel free if you've time to try and change our minds
You might want to duck before you lose your head
It seems we're the ones who's got the guts to bleed

It's not number one who will come out alive
It's the freak in the corner with his eyes on fire
Let's kill music before it kills us all
