

# What Have You Gone and Done?

## The Cooper Temple Clause

You never let go  
How the hell was I to know  
That you'd never let go  
You never let go  
Now I'm all on my own  
It's out of my hands  
Now there is a rocket in the skies  
And it's all out of control  
They've taken control  
They're loosing their heads  
They've got the money  
Now the meek have got the message

Be afraid of what you can  
And be gone on your way to all your wasted lies

I can't be the only one  
To think what have become  
Who can't quite believe he's on this side  
This is no ordinary world  
What have you gone and done  
When you had the chance to prove us wrong  
I can't be the only one  
You left me down here  
You let me down  
Now it seems you're never coming back  
Because they never fight fair  
They've dragged us all in  
Just stay on guard  
Don't show all our cards  
Repeat you have to stay on guard

Be afraid of what you can  
And be gone on your way to all your wasted lies

Go on your way  
Don't be brave now just keep your head down  
We'll do our best but we can't hold on too long
