

What Have You Gone and Done?

The Cooper Temple Clause

You never let go
How the hell was I to know
That you'd never let go
You never let go
Now I'm all on my own
It's out of my hands
Now there is a rocket in the skies
And it's all out of control
They've taken control
They're loosing their heads
They've got the money
Now the meek have got the message

Be afraid of what you can
And be gone on your way to all your wasted lies

I can't be the only one
To think what have become
Who can't quite believe he's on this side
This is no ordinary world
What have you gone and done
When you had the chance to prove us wrong
I can't be the only one
You left me down here
You let me down
Now it seems you're never coming back
Because they never fight fair
They've dragged us all in
Just stay on guard
Don't show all our cards
Repeat you have to stay on guard

Be afraid of what you can
And be gone on your way to all your wasted lies

Go on your way
Don't be brave now just keep your head down
We'll do our best but we can't hold on too long
