

Let's Waste Time Together

The Copyrights

Do we really know our way?
And does it really matter what you do everyday?
Do we really have a place?
Or should we do more than just take up space?
I've been wasting my time in the way I think's right
And I may be wrong
And if that's the case
I'll still be okay
Because nothing mattered over all
Do we really know our way?
And does it really matter what you do everyday?
Do we really have a place?
Or should we do more than just take up space?
I've been wasting my time in the way I think's right
And I may be wrong
And if that's the case
I'll still be okay
Because nothing mattered over all
I've been wasting my time in the way that I think's right
