

You And I

The Copyrights

Maybe you should pick a time that would be the best
To take a ride out to the midwest
You and I we'll finally get some time to hang out
So far I like what you're all about
There's a show this weekend
It'd be cooler if you came
Or we could sit at home with Jones soda and video games
You know I had a great time when you came down
I think next time I'll come to your town
I liked to sit outside and talk all night
Your eyes were glowing in the moonlight
There's a show this weekend
It'd be cooler if you came
Or we could sit at home with Jones soda and video games
I can't wait to see you again...
