You And I

The Copyrights

Maybe you should pick a time that would be the best To take a ride out to the midwest You and I we'll finally get some time to hang out So far I like what you're all about There's a show this weekend It'd be cooler if you came Or we could sit at home with Jones soda and video games You know I had a great time when you came down I think next time I'll come to your town I liked to sit outside and talk all night Your eyes were glowing in the moonlight There's a show this weekend It'd be cooler if you came Or we could sit at home with Jones soda and video games I can't wait to see you again...
