

## Grey Harpoon

The Coral

Please don't let the light through my window  
Keep the curtain shut  
It brings me good luck

Please don't let the light through my window  
Don't wanna see the day  
I don't need it anyway

Please don't let the light through my window  
Don't wanna see the shop or the wet bus stop

Please don't let the light through my window  
The bells ring out for doom  
On this sunday afternoon

Please don't let the light through my window  
Please don't let the light through my window  
Please don't let the light through my window  
Please don't let the light through my window  
Please don't let the light through my window  
Please don't let the light through my window  
Please don't let the light through my window  
Please don't let the light through my window
