

# The Watcher in the Distance

The Coral

I've heard the silent sound  
Ventured inbetween the here and now  
And the watcher in the distance  
Closer now than you will ever know

The touch, how it's unfolds  
The journey to the centre of the world  
I am the watcher in the distance  
Closer now than you will ever know

I saw the lost cities  
Frozen there in icy mystery  
I am the watcher in the distance  
Closer now than you will ever know

Don't think I've gone away  
I walk beside you every single day  
I am the watcher in the distance  
Closer now than you will ever know

I've heard the silent sound  
Ventured inbetween the here and now  
I am the watcher in the distance  
Closer now than you will ever know  
The watcher in the distance  
The watcher in the distance  
The watcher in the distance  
The watcher in the distance  
The watcher
