I'm bombing uppercut swipes as my knuckles ignire  
More strikes than a teachin' staff's fight for pay hikes  
Like cleats wit' spikes I clings to my turf tight  
Get, low like a Smurf might earth is my birthright  
You salivate at the sound of the bell  
I come sick and make your lymph nodes swekk  
Nickel-plated teeth and tongue as well so you can tell  
when I'm shootin' off my mouth the politicians start to bail  
When I shoot, Fuhrman scoot I'm yellin', "Gimme all the loot!"  
Bourgeoise pimpin' me now my digits don't compute  
Chillin' in a house of ill repute  
But is you wearin' canvasols or purple-pinstripe suits?  
Fact of earth and comets: macroeconomics  
Yak until you vomit, or come up on a lick  
Sweat oozin' my skin just to get another fin'  
Changed my name to Valerie so I can get WIC  
Savage Storm Troopers be less than seducive  
Jailtime produc'in', silly Lilliputians!  
This Gulliver, come equipped with a fo'-fo'  
and twelve comrades in a box Chev' fo' do'  
Skirtin' down the strip with a mission to render  
And we don't give a fuck if we missin a fender  
Mix it in a blender, you ain't home return to sender  
Can't be saved by cokenders or a public defender  
This ain't no macrobiotic chemical colonic  
This politicalsymphoniclyricalnarcotic  
Somethin' much mo' potent that we plotted  
Come and get some, if you ain't got it

cause I'm be -double-O-T, from the see-O-you the P  
I feel my epedermis at it's firmest just befo' a skirmish  
If you want green like Kermit keep it heated like a Thermos  
Aspired to be famous, puttin fire in their anus  
Made the rulin' class hate us more than child sup-port payments

to Rosemary's Baby, shick-a-shick-shady!!  
Pissin' in your gumbo and they tell you, "It's all gravy!"  
See you can't trust a big grip and a smile  
And I slang rocks - but Palestinian style  
Now there's a rumble in the jungle never mumble though I humble  
Couple rappers took a tumble but my folks still want to rumble  
Who's pimpin', your bundle? I'm Fly like, Seth Brundle  
If you're snitchin' to Columbo we gon' drop you like a fumble  
Now what you make is point-oh-one percent of what the boss make  
And what the boss take is keepin' us from livin' great  
If this ain't straight you think you want to sit down and negotiate  
You better have a crew to help you shutdown his estate  
Don't get frustrated, discombobulated  
Don't stand and debate it, get a mob and take it!  
Til then it's food stamps, vouchers, mildew-smellin' couches  
Overturned garbage cans wit' no Oscar the Grouches  
Makin' money sellin plastic pouches  
As Mystikal would say, "My flo' is covered wit' roaches!"  
Absotively, posolutely, can't do without it  
The Shipment is delivered, come and get it if you bout it!
