

# Promise Me

The Cover Girls

Its been so very long  
Since you held me in your arms this way  
And all this time that you've been gone  
I've thought about you each and every day

So now you've returned  
And you want to try our love again  
But frankly I'm concerned  
That you will hurt (Hurt me) like you did then

What you must do  
To prove your love is true  
Is give me a guarantee  
That you'll love me through and through

Promise me  
That this time love will stay (Love will stay)  
Promise me (Promise me)  
That you'll never go away (Never go away)

Promise me  
That this time love won't end (Love won't end)  
Promise me  
That I will never cry again
