

# Thank You

The Cover Girls

Ooh...ooh...ooh...ooh...ooh...

I was young  
When I met you  
You were my first love  
Love was new, oh, whoa

But then you went away  
And broke my little heart  
I learned to live with pain  
While we were apart

Time  
Brought us back together again  
We became lovers  
We became friends

I just want to thank you  
For the love you gave  
I just want to thank you  
For the love we made

I just want to thank you  
Just thank you  
Cause even though we're not together  
You know that I'll love you forevermore (Forevermore)

I look back  
On those days  
we've gone our  
Separate ways

Ooh, ooh, ooh, I still think  
Thoughts of you  
A love that we once shared  
Will always shine through

Time  
Taught us how to let our grow  
How it all happened  
I still don't know

I just want to thank you  
For the love you gave  
I just want to thank you  
For the love we made

I just want to thank you  
Just thank you  
Cause even though we're not together  
You know that I'll love you forever more, whoa...oh...oh...

Time  
Brought us back together again  
We became lovers  
We became friends

I just want to thank you

For the love you gave  
I just want to thank you  
For the love we made

I just want to thank you  
Just thank you  
Thanks a million, boy  
Ooh...ooh...ooh...ooh...

I just want to thank you  
For the love you gave  
I just want to thank you  
For the love we made (Ooh...ooh...ooh...ooh...)

Thank you  
Just thank you  
Thank you, boy  
Ooh...ooh...ooh...ooh...ooh...

I just want to thank you  
For the love you gave  
I just want to thank you  
For the love we made
