For so long, I kept these feelings for you locked up inside
And there were nights that I would cry myself to sleep and wonder why

Now I don't want to tell you how to live Don't want to put the blame But don't you think it's time for you and I To try to make a change

We can't go wrong
(Loving one another]
We can't go wrong
(Caring for each other]
We can't go wrong
If the love we have is real
We can't go wrong

There was a time when things were better than the way they are today But we forgot the vows we made and love got lost along the way

Now I can tell just by the way you look at me that you feel the same So don't you think it's time for you and I to try to make a change

We can't go wrong (Loving one another] We can't go wrong (Caring for each other] We can't go wrong If the love we have is real We can't go wrong We can't go wrong (Loving one another] We can't go wrong (Caring for each other] We can't go wrong If the love we have is real We can't go wrong If the love we have is real
