

## Can't Find My Mind

The Cramps

I've got a black skin suit  
Alligator shoes  
Now I found success  
And I paid my dues

Well everything is fine  
But I can't find my mind

I've got a crystal ball  
And a divining rod  
Magnifying glass  
And a pack of dogs

I looked up my sign  
But I can't find my mind

I called the law  
Hired a private eye  
Turned in an APB  
With the FBI

No matter what I do  
I still can't find a clue  
That's right

I don't know what to think  
I've looked every place  
Where is the missing link  
That was behind my face ?  
There's only one thing to do...
