

# I Really Hope

The Cranberries

I don't down this row before  
Now I'm coming back for more  
This is like a déjà-vu  
I was born to be with you

Into the night we went to sleep  
You and I were meant for peace  
Into the night we went to play  
You and I

I really hope you'll always be  
So in love with me  
I really hope we'll always stay  
So attached this way  
I really hope you'll always be  
So in love with me  
I really hope we'll always stay  
So attached this way

So  
We don't have to change at all  
And our life will not xxx  
It's one freedom all about

Into the night we go to sleep  
You and I were meant for kiss  
Into the night we go to play  
You and i

I really hope you'll always be  
So in love with me  
I really hope we'll always stay  
So attached this way  
I really hope you'll always be  
So in love with me  
I really hope we'll always stay  
So attached this way

I really hope you'll always be  
So in love with me  
I really hope we'll always stay  
So attached this way  
I really hope you'll always be  
So in love with me  
I really hope we'll always stay  
So attached this way

I really hope that you'll always be here  
I really hope that you'll always be near  
Take really note that I'll always be here  
I really hope that we'll always be near
