

## I Still Do

The Cranberries

I'm not ready for this  
Though I thought I would be  
I can't see the future  
Though I thought I could see

I don't want to leave you  
Even though I have to  
I don't want to love you I still do

Need some time to find myself  
I wanna live within

Can I go my own way  
Can I pray my own way  
I don't want to leave you I need you

Am I ready for this  
Did I think I would be  
Can I see the future  
No, I can't see
