## **The Glory**

## **The Cranberries**

Could you come over Could you come over I'm feeling blue What will you do If you could come over You could come over I'm feeling bad I'm feeling sad

Then I see the rose I see the glory in your eyes And winter comes and then it snows I see the glory in your eyes I'm feeling lost I see the rose I see the glory in your eyes And winter comes and then it snows I see the glory in your eyes, in your eyes...

Do you remember Late in September The banshee cry When someone dies Sleeping in silence While I am dreaming It's all in my mind The beauty I find

Lost I see the rose I see the glory in your eyes And winter comes and then it snows I see the glory in your eyes I'm feeling lost I see the rose I see the glory in your eyes And winter comes and then it snows I see the glory in your eyes, in your eyes...
