

Best Of The Best

The Crash

I think I need a friend
Just a friend to hold
What a dream I had, oh
You were still around, saying:

"Don't stop.
We're living it fast.
Feet on a one way street.
Don't start,
You're breaking my heart in t-t-two.
Don't stop,
We'll make it alright,
I know we are the best of the best.
I know we are the best of the best.
I know we are the best of the best."

I said "sure we are,
Just like falling stars"
I remember you
Singing all the way down:
"Don't stop"

But then, we ran out of luck
And I ran out of you.
What a dream we had, oh
Off to Mexico, singing
"Don't stop"
